Home Technology Survey

September 5, 2001

Dear Parents,

This year our curriculum will involve **using the computers and the internet** as a learning tool in our classroom and the school computer lab. In fact almost all of our curriculum for the 2001-2002 school year is already posted on our class website at www.middleschoolkidz.com. I also strongly **encourage families to provide the students with access to a home computer that is connected to the internet**, if it is at all possible. Please take a couple of minutes to complete the survey below and return it to school with your child tomorrow.
